June 22, 2010

Corinne Vititoe, President-of-the-Month

Free Motion Quilting Demo

Ms. Carol Skinner, owner of the [Paw Patch Quilt Shop](#) in Mount Vernon will be our guest presenter for June. Carol loves to teach and has a program for us on *Free Motion Quilting* with a demonstration. There'll be handouts, demos and a surprise or two.

Given that not all 60 guild members can be close to Carol at one time for the demonstration, we'll not only have the demo projected on screen but we are looking for 8-10 volunteers who'll bring something to work on, set up their sewing machine with the free motion quilting foot (*also bring your long extension cord*) and be ready to sew right along with the demonstration during the demo. This will allow smaller groups to gather round you too and follow along with Carol and maybe even try the procedure. **To be an aid in this class, please give Corinne a call ASAP.**

We look forward to having Carol Skinner as our guest on June 22nd and we want to support everyone in learning this technique.

Quilt Tips From Quilters Around The World

For quilters who like to keep the bobbin and thread spool together when storing, I have an idea that works and costs you nothing. I have purchased many gizmos for keeping the correct bobbin with the top thread spool. One day I found myself in need of one of those gizmos and all of mine were in use. Instead I took a twist tie which came with my garbage bags and ran it up the hole in the thread spool and then through the bobbin center hole and gave a twist. Now I use nothing but this method and save myself a lot of money. Any quilter who has had to dig through their stash of bobbins to match the top spool will appreciate this as well. - Kathy in Indiana

To sharpen your rotary cutters, fold up a piece of silver foil so that you have several layers and then just cut through it several times and your cutter will be sharpened.. Works great!! - Beverly in Australia
